

Premier Brownlee Speaks At Didsbury

Premier Brownlee was greeted with a crowded house on Thursday evening last when he opened the campaign in this constituency.

Mr. W. J. McCoy occupied the chair and the Premier was introduced and greeted by Mayor Chambers. He was accompanied by the Hon Geo. Hoadley and A. B. Claypool, the member for this district.

A. B. Claypool spoke briefly and announced his candidacy for re-election.

Hon. Geo. Hoadley complimented the Didsbury District as being looked upon as one of the best farming districts in the Province. He spoke of the good work that was being done by the Department of Health and he advocated the establishment of Municipal Hospitals and of the need of medical examination of school children.

The Premier was greeted with much applause. He stated that in the present campaign the government was not going to appeal to the electors with promises but was going to stand on past achievements.

He pointed to the three great problems that had been solved viz. the northern railway, situation of the natural resources and Provincial telephones. He said that the telephone had been put on a paying basis and that instead of showing a deficit as it did when the Farmers came into power it was now producing a surplus and would be able to pay off the present indebtedness in fifteen years.

He claims that in both sale of the northern railways and in the natural resources agreement, the government had obtained better terms than were expected by the opposition.

He said that there had been no criticism of the administration during their whole term of office except their financial record.

This criticism was unfair, he asserted, and said that out of the 101,000,000 of indebtedness \$22,000 was the northern railways, for

Mothers and Daughters Banquet

An interesting event took place in United Church, Monday evening 26th, when about 80 mothers and daughters of W.C.T.U. and Y.P.B. sat down to well-filled tables of good things. Table decorations were daintily carried out in gold and white, including flowers.

Mrs. H. M. Reiber presided, introducing the speakers of the evening, and Mrs. A. E. Hayes, Mrs. C. Hallman and Mrs. J. Harder brought greetings and visualized the Ideal Mother and Daughter. Rena Honey, president of Y.P.B. ably responded with words of appreciation to the mothers.

An exercise entitled "Garden of Womanhood" was given by 7 girls, representing Love, Modesty, Hope, Trust, Friendship, Gladness, Patience and Purity. Mrs. Cunningham represented the gardener.

Mrs. C. J. Grevett, Calgary, was speaker of the evening and her talk, together with other speakers, were heard with interest.

Several songs by 23 Y. voices, recitations and a solo were given

which they were not responsible and that \$10,500,000 would be returned to the government when purchasers make their final payment. He pointed out that the \$24,000,000 which had been borrowed for public highways was good business and the \$15,000,000 for public buildings was not large when the number of public buildings in the Province was considered.

He met the criticism that the government were spending too much money by pointing out some of the increased costs that the government had to bear and stated that in spite of the increased service they had reduced the administrative costs by almost one million dollars.

In referring to the administration of the co-operative credits he admitted a loss with the Donatville Society but claimed the loss would not be great. The policy had been instituted by the previous administration and the losses sustained had not been as great, as evidenced in the "Cow Bill."

LOCAL & GENERAL

Mr. and Mrs. Ted Brown drove to Camrose to visit with the latter's parents over the holiday.

For the next month, services in St. Cyprian's Church will be as follows: 1st Sunday, 3 p.m., 2nd, 11 a.m., 3rd, 7-80 p.m.

Mr. and Mrs. H. Clements and Marjorie and Mildred of Pincher Creek, were holiday guests at the home of Mrs. Bruce T. Parker.

The directors of Didsbury constituency will meet the U.F.A. Local No. 12, Friday next, 30th May, 3 p.m. in old United Church building. All members requested to be present.

Promotion exercises for the wets in Evangelical Church as previously announced for Sunday morning, are postponed till further notice, owing to whooping-cough still effecting some of the children concerned.

Departmental examinations for the High School pupils, start on Monday, 16th June and finish Monday, 30th June. Grade VIII exams start one week later, Monday 23rd June and finish Friday, 27th June.

The residents of Allingham and Sunnyslope districts are announcing a celebration at Keivers Lake. This is an ideal place for picnicing and there will be good sports, swimming and a dance in the evening. Date planned is July 1st

A demonstration of the Lantz Bull Dog tractor was held at the farm of Mr. Geo. Konschuck on Wednesday last. This tractor, which has a Semi-Diesel motor and uses crude oil for fuel, attracted a good deal of attention, over 200 farmers witnessing the demonstration.

Mrs. Roppel will have charge of the Sunday evening service in the Evangelical Church, owing to the absence of the pastor. He (Rev. Roppel) is engaged as anniversary speaker in Innisfail United Church for the nineteen hundredth anniversary of Pentecost.

The Didsbury Tennis Club have gone to a lot of trouble in fixing up the courts and putting them in shape for playing. It would be much appreciated if the members would hand in their dues to the secretary or president as soon as possible, as there are a number of bills to meet. The club would like the members to get as much practice as possible as they intend to make up a draw for tournament in the near future. The players are requested to wear regulation tennis shoes on the courts. No heels! This will help to keep the courts in good shape.

CARD OF THANKS

We wish to express our gratitude and appreciation to all our friends in the Didsbury district, also the Hospital staff for the kindness shown Mrs. Traub during her recent illness.

Mr. and Mrs. Traub and Family.

CROSSFIELD 8 DIDS BURY 1

Crossfield added another two points to their standing in Rosebud League when they defeated Didsbury on the local diamond, Monday evening by the score of 8-1.

Hugh Lee started on the mound for the locals and was touched for four hits by the first four men to bat. Lee Russell was then called to the box and soon retired the visitors with a double play and striking out the next man to bat. Russell threw nice ball throughout the game, only allowing five hits.

"Scotty" Lee twirled the first four innings for the visitors, allowing three hits and one man to cross the home plate.

Crossfield had the game pretty well in hand at the beginning of the fifth, when Williams relieved Lee. Williams did not strike out a man during the four innings he was on the mound but he received the best of support, only one error being chalked up.

Line-up—Crossfield: McDowell, McKinley, Smart, Williams, Lee, Bills, Eaton, Heywood and Evans.

Didsbury: Ing, Devolin, Cook, Sutherland, Weber, Russell, Lee, Goader and Wyman.

W. A. Austin Is Named Independent

W. A. Austin was nominated as Independent candidate at a convention at Sunnyslope, Friday afternoon last.

There were over 150 electors in attendance at the meeting, which had been called on two days notice, delegates being present from all parts of the constituency.

Four names were presented to the meeting: Dr. Chrystal, Carstairs; W. A. Austin, Didsbury; Dr. MacFarlane, Carbon and A. J. Robertson, Three Hills. Dr. MacFarlane and Mr. Robertson withdrew their names and W. A. Austin was elected on a small margin over Dr. Chrystal. The choice of Mr. Austin was made unanimous by the meeting.

Organization of the Independent party was perfected with committees appointed in all the urban centres of the district.

The following officers and executive committee were appointed: H. W. Chambers, chairman, Didsbury; C. E. Reiber, secretary, Didsbury; committee: J. J. Greenan, Carbon; J. Kiem, Acme; D. P. Hays, Carstairs; E. C. White, Sunnyslope; A. C. Fisher, Didsbury; Dr. Elliott, Swalwell and Alf. Boyle, Hesketh.

Mr. Austin thanked the meeting for their confidence in him and pledged his support to all legislation which would result in the betterment of the Province as a whole, irrespective of party.

The West Helps the East

The reduced volume of wheat production in Western Canada last year, coupled with the serious tie-up in grain shipments owing to the absence of a profitable export market, has at least had the effect of opening the eyes of Eastern Canada to certain facts which formerly they did not realize, or at all events were loth to admit did exist.

For a long period of years, even in fairly recent years, the opinion was voiced throughout the eastern portion of the Dominion that the West imposed quite a drain on the East, that the East was taxed to provide immigration, transportation, and other services for the West, and for which the East received no adequate return.

Now, apparently, this view is no longer held, for we find such an outstanding Ontario paper as "Toronto Saturday Night," which more or less reflects the financial viewpoint of the city in which it is published, featuring an article which opens with the following paragraph:

"Behind the dark curtain of wheat—the emphasis which has been placed on failure of the last crop to move—the controversy over marketing methods with the resultant propaganda—is to be found the true economic status of the Canadian west. A clear and unbiased examination of the facts—the facts alone dissociated from the passions aroused by factional contention—is vital to east and west alike. Upon such knowledge only can the confidence of the manufacturer in his commitments for the summer and fall months of the year be founded. There is no disputing the fact that the balance between prosperity and a curtailed volume of trade rests upon the West's purchasing power."

The admission, or recognition, contained in that last sentence is certainly refreshing and welcome to the people of Western Canada. Its recognition by the East must undoubtedly mean the rapid development of a better understanding between the vast sections of the Dominion which lie to the east and west respectively of the Great Lakes. And such better understanding is vital to the welfare of Canada.

The second fact which the experiences of the past twelve months have brought forcibly to the attention of the whole country is that the volume of freight traffic provided for our two great transportation systems by the grain shipments of the prairie provinces is an important, yes, a vital factor, in maintaining their net profits at a satisfactorily high figure. Not so long ago, the railway managements contended that rates for western grain carriage fixed by the Railway Commission were so low that there was no margin of profit for them in this class of business; that, in fact, there was a loss taken in the movement of western grain, which loss had to be made up out of other earnings. This, therefore, also constituted something of a grievance in the eyes of eastern shippers.

Now, however, both railways have frankly attributed the drop in their profits, in not merely the gross but the net profits, to the heavy decline in grain shipments. In other words, they have admitted the profitable nature of the western grain business from a railway transportation standpoint.

These things are deeply significant. It is well known that freight rates on grain in Western Canada are much lower than they are on railways in western grain areas of the United States, and to that extent the Western Canadian farmer has an advantage over his United States competitor in world markets. It is, however, gratifying to know that such advantage is not gained by imposing actual loss upon the transportation companies of this Dominion.

To the West, too, it is gratifying to know that it is a vital factor in promoting the prosperity of the manufacturing industries of the East. That is as it should be. The West desires to help Canada forward. It is anxious that the settlement of its broad acres and the fertility of its soil should result in big and profitable business for the East. The West prefers Canadian-made goods above all others, and it is a source of real gratification to our people to realize that we have it in our power to confer the benefits of increased business and prosperity upon our fellow Canadian citizens east of the Great Lakes.

Out of the troublous times and somewhat bitter experiences of the last season there has come the happy realization, both east and west, of our dependence on each other; of our common interest in the welfare of each other; in our joint pride and concern in the progress and prosperity of our common country.

The United States will show the best features of its "billion dollar poultry industry" in an exhibit to be sent to the World Poultry Congress in London this summer.

Not so many years ago, farmers regarded sweet clover as a persistent weed; now they cultivate it for hay and pasturage and to improve the soil.

Reduce the Acid

Sick stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestines sour.

Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia, because one harmless, tasteless dose neutralizes many times its volume in acid. Since its invention, 50 years ago, it has remained the standard with physicians everywhere.

Take a spoonful in water and your unhappy condition will probably end in five minutes. Then you will always know what to do. Crude and harmful methods will never appeal to you. Go prove this for your own sake. It may save a great many disagreeable hours.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Plan Daring Venture

Group Of Japanese Business Men Sponsoring Air Line Across Pacific

A project of inaugurating a regular passenger and air line between Japan and the United States and Canada to shorten the distance between the continents to three days is reported to have been organized by a group of Japanese business men and financed at a capitalization of \$75,000,000. Four huge airships, resembling the Graf Zeppelin, which encircled the globe last year, are expected to be employed for the regular air trips.

The Japanese government has been officially asked for the necessary permits and those behind the enterprise say they propose to go right ahead with their preparations.

Seki Hoshino, noted Tokyo business man and one of the promoters, says the plan was projected last year shortly after the visit of the German dirigible. The single fare for a passenger, he said, would be \$1,500.

"It may take us a year or two to complete organization," said Mr. Hoshino. "International agreements will have to be negotiated. But we are absolutely serious in this undertaking. It is a daring venture, but we believe that it is feasible and we are prepared to go right ahead with it."

RHEUMATIC VICTIM FOR SIXTEEN YEARS

Dr. Williams' Pink Pills Restored Her Health

Rheumatism is a disorder of the blood. Wet, cold weather may aggravate it but that is not the cause. Bad blood charged with uric acid is the reason. Re-build the blood and rheumatism will disappear. Dr. Williams' Pink Pills enrich and purify the blood and that makes good health.

Mrs. John C. McPherson, St. Mary's, Ont., writes:—"For sixteen years I was a victim of rheumatism. For eleven years I was unable to walk. Massage and chiropractic treatment failed. I was utterly discouraged till I heard how strongly Dr. Williams' Pink Pills were recommended for cases like mine. I began their use and in a few weeks the pain lessened, my appetite and color improved, and now I am able to do light housework. It is wonderful what these pills have done for me."

Dr. Williams' Pink Pills do one thing but they do it well—they enrich and purify the blood. This rich blood banishes rheumatism, sciatica, neuralgia and neuritis and promotes health and strength. The Pills are sold by medicine dealers or by mail at 50 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

Fair Booklet Issued

Under the title "Hints for Exhibitors," the provincial department of agriculture has issued a booklet that deals with exhibits and the preparation of exhibits for the World's Grain Exhibition and Conference that will be held in Regina July 25 to August 6, 1932. Copies may be secured by applying to the department. Hon. W. C. Buckle, Minister of Agriculture, is chairman of the executive Saskatchewan committee.

Miller's Worm Powders can do no injury to the most delicate child. Any child, or infant in the state of adolescence who is infested with worms can take this preparation without a qualm of the stomach, and will find in it a sure relief and a full protection from these destructive pests, which are responsible for much sickness and great suffering to legions of little ones.

Law With Teeth

Two thousand Austrians though several thousand miles removed from America are kept dry by a prohibition law with teeth in it. They are persons who have committed small crimes while under the influence of alcohol and who have received sentences which become effective when and if they take another drink.

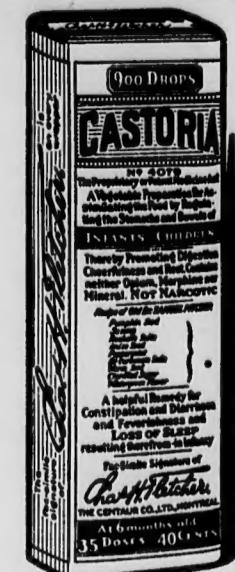

Douglas' Egyptian Liniment is unrivaled for speedy relief in muscular rheumatism, lame back, inflammation, burns and felonies.

An Odd Ornament

A human jaw bone carved with hieroglyphs and made into a pendant is an odd piece of jewelry worn by one of the prehistoric Mayas and found recently by a British archaeological expedition to British Honduras.

When Babies FRET

There are times when a baby is too fretful or feverish to be sung to sleep. There are some pains a mother cannot pat away. But there's no time when any baby can't have the quick comfort of Castoria! A few drops, and your little one is soon at ease—back to sleep almost before you can slip away.

Remember this harmless, pure vegetable preparation when children are ailing. Don't stop its use when Baby has been brought safely through the age of colic,

No Moths In Arctic

Woolen Mittens Seventy-Eight Years Old Are Like New

Clothes moths are unknown in the Arctic. Let a pair of white woolen mitts, hanging in the office of O. S. Finnie, at Ottawa, testify. Mr. Finnie is director of the North West Territories and Yukon Department of the Interior.

They were knitted—these mittens—in England, 80 or 90 years ago. A bundle of them was purchased by the outfitters of Captain Sir Leopold McClintock, commander of one of the ships that went north, in search of Sir John Franklin.

They were fastened up in a cask and cached on Dealy Island, in 1852, exactly 78 years ago.

Last spring, Inspector Joy came upon the mittens, and he used them. They are back in civilization, and look like new.

HAMILTON D.N.T.

Western Representatives:
HUNTER-MARTIN & CO., REGINA, SASK.

Expect National Livestock Policy Recently Formulated Will Greatly Aid Industry

Involving the appointment of a committee of three, and federal appropriation of \$1,000,000, a national livestock policy has been formulated by the Canadian Livestock Co-operative organizations, following the recent all-Canada agricultural conference in Ottawa, it was announced by W. D. Mackay, president of the Canadian Livestock Co-operative.

It is proposed that the committee of three, comprising a representative of the livestock co-operatives, a representative of the federal department of agriculture and a third to be chosen by these two, have the direction of the national policy, which will involve the construction of two demonstration abattoirs, one in eastern Canada and one in the west.

Location of the western plant has not been decided yet, but there is some possibility it may be built in Regina.

The purpose of the policy is to enable producers to secure information in regard to processing, distribution and marketing, as well as production, so that not only will costs of processing be determined, but also grades may be established on a proper basis for both live animals and meat products.

"It is the intention," said Mr. Mackay, "to cover all phases of the industry from producer to consumer. There are serious defects in production as well as in processing, distribution and marketing."

The policy outlined is the aftermath of the Ottawa conference in March between representatives of the federal and provincial departments of agriculture and of the livestock co-operatives, when a resolution was adopted requesting the federal department, in association with the co-operatives, "to investigate the reasons for the fluctuation in prices of livestock and livestock products, and endeavor to construct a policy which will stabilize prices to profitable levels, particularly with reference to selling of such products on the export markets."

"The proposal," said Mr. Mackay, "does not contemplate any interference with the established packing industry, but the proposed two demonstration abattoirs will be in the nature of research laboratories, designed to establish the necessary spread in prices between the live animal and the finished products, to determine the possibilities of extending the range of variety of products and to ascertain the extent to which diseased animals should be a charge on livestock production."

"These demonstration abattoirs would be an invaluable aid to the industry in solving problems which will doubtless arise as the industry develops. Rightly or wrongly, the majority of producers today believe they are paying unnecessary charges for a huge surplus of equipment, for excessive costs on equipment not being used to capacity and for out-of-date equipment."

"These are some of the reasons why the livestock industry is languishing and why it is impossible to persuade the producer to increase production to the point where it would be possible to meet the requirements of the British market for a continuous supply of uniform quality products."

"While livestock production has made progress in the past 15 years, it has made less progress than any

other industry in the Dominion. In fact, Canada's exports of livestock and livestock products are rapidly approaching the vanishing point whereas this should be one of our big sources of national revenue."

Canadian cattle exports have dropped from 204,000 head in 1925, to 162,000 last year, and live hogs in the same period from 89,000 to 3,900 head. Exports of hog products have dwindled from 150,000,000 pounds in 1925, to 39,000,000 pounds in 1929. For the same period total marketings of Canadian cattle have declined 168,000 head, and hogs, 160,000.

"The seriousness of the trend can readily be grasped when the importance of the livestock industry to agriculture and the importance of agriculture to the national welfare is considered. Because of the relationship between agriculture and industry the problem is of great interest to the city man as the farm resident, and it affects the welfare of eastern Canada just as it does that of the west."

"Moneys have been expended for research and laboratory work in connection with other commodities, and it is just as imperative that similar assistance be given to the livestock industry, at present a declining national asset. If steps are not taken to put it on a parity with other industries, all industry will suffer."

"Under present conditions the producer is afraid to increase his production. It is essential he receive some assurance that his efforts will not be met by greater losses."

Predicts Speedier Motor Cars

Will Come With Better Highways, Says Sir Henry Segrave

Automotive racing cars which will travel so fast that the human eye will be unable to record their passage are mechanical eventualities — speedsters on land which will outpace the swiftest aircraft that have been designed for cruising among the clouds.

That, at least, is the prediction of Sir Henry Segrave, owner and driver of the world's fleetest automobile, the spectacular "Golden Arrow" which was powered to attain a maximum speed of four miles a minute and which was timed at Daytona Beach at the unparalleled velocity of 231 miles an hour.

Sir Henry Segrave maintains, says "The Scientific American," that with the eventual building of super highways in the United States, and with future perfections of the ordinary motor car, American motorists will travel at speeds from 100 to 150 miles an hour during their cross country tours with as great safety as they now journey at forty-five miles an hour. He says that at present there are ten makes of cars built in England which can do 100 miles an hour or better on present tracks and the finest roadways.

The Great Northern Plains

Area In Dominion Furnishes Pasture For Musk Ox Caribou

There is an area in Northern Canada lying between the timber-line and the tide-water of the Arctic Ocean and Hudson Bay, which includes about 500,000 square miles or nearly one-seventh of the area of the whole Dominion. Although not producing trees this area is not barren but provides pasture, in places luxuriant, for the migratory musk ox and caribou. Several exploratory expeditions have been made through portions of this area during recent years by surveyors of the Topographical Survey, Department of the Interior.

Ice From Desert Sands

Torrid desert sands may furnish the ice of the future, and it will be twice as cold as any ice made from water. The commercial possibilities of "dry ice" from carbon-dioxide wells lying beneath the arid stretches of western Colorado and eastern Utah are being stressed by the United States Department of the Interior.

"You haven't said why you want a divorce?"
"Because I have a husband."—Guerin Meschino, Milan.

Launches "Helene"

Miss Nesta Gilles, daughter of Captain James Gillies, C.B.E., general manager of the Canadian Pacific Steamships, Ltd., who launched the "Princess Helene" from the yards of Messrs. Wm. Denny & Brothers, Ltd., Dumbarton, on April 29th.

The "Princess Helene" will have a tonnage of about 4,000 and her port of registry will be Saint John, N.B. She is intended for the Canadian Pacific Bay of Fundy service.

Who Controls Canada's Wealth

Estimates Show Largest Per Cent. Of Securities Held By Canadians

All this talk about Wall Street owing Canada does not stand up before facts.

The wealth of the Dominion is between \$28,000,000,000 and \$30,000,000,000 according to the latest figures of the Dominion Bureau of Statistics. Of this sum outside capital makes up \$5,904,000,000, or not more than one-fifth of the whole. And this one-fifth is by no means all in the hands of American neighbors. More than \$2,000,000,000 of the amount belongs to the British Isles, the United States share being \$3,470,000,000.

Further, the bureau estimates that from 55 to 65 per cent. of the securities of all enterprises on Canadian soil are in Canadian hands, and that, in addition, Canadians have invested abroad the sum of \$1,745,815,000, of which nearly \$1,000,000,000

In other words, Canada's 10,000,000 people have invested outside of their own country something like 30 per cent. of the amount that represents outside investments in Canada.

Ship's Cook (to new helper) — "Ever been on a ship before?"

Helper — "Sure. I was a gunner in the Navy."

Cook — "Well, start right in and shell the peas."

Development Of Extensive Fish Industry In Hudson And James Bays Planned

Farming By Machinery

Mechanical Aids Have Followed Each Other In Quick Succession

Early in the day, on farms large and small, the inventor and manufacturer largely repeated their triumphs in factories and mills. Their reaper had started a revolution on the land before the Civil War. But that crude device, which merely cut the grain and left it unbound in piles, was superseded by the automatic self-binder, and later, in the Far West, by a machine that cut, threshed and bagged wheat ready for the market all in a single operation.

In 1870 the chilled steel plow, light and durable, was available at a low cost to farmers long accustomed to the heavy, back-breaking implement of ancient memories. Swift in succession came mechanical corn planters and wheat drills that drove from the fields the men who dropped or sowed grain by hand. Corn huskers, shellers, riding plows, hay loaders, potato diggers, tractors, gas engines and other prime inventions made a change in the cultivation of the soil scarcely less profound than that wrought by the spinning jenny, the loom, and the blast furnace in the methods of manufacture.

The man or woman with a hoe, bowed by the weight of centuries, now mounted a tractor and drove a furrow with the knack of a motorist. If, unlike the industrial operative, the farmer worked alone in the open country, still the automobile, rural postal service, telephone, and radio now gave him quick communication with the market, bank and grange.

Idea Might Be Useful

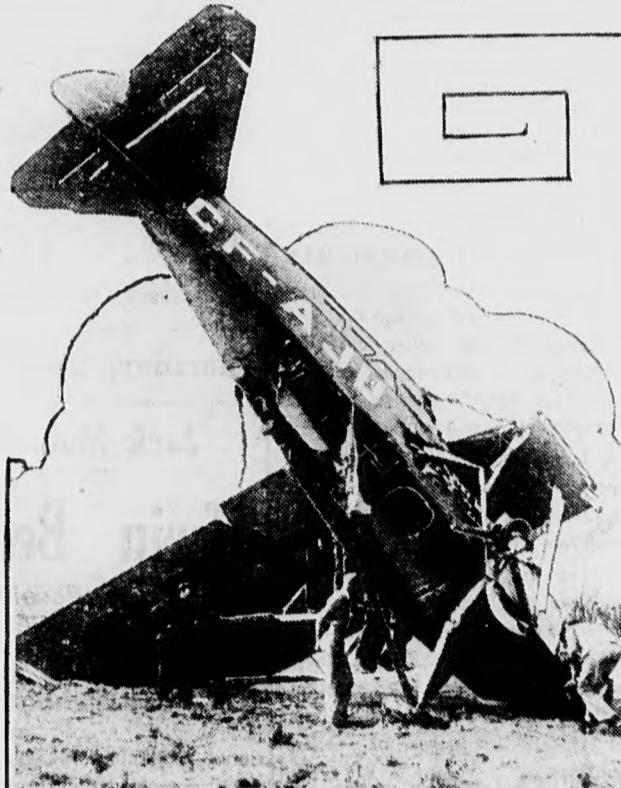

Ontario Town Has Use For Old Motor Cars

Never again will wornout motor cars be discarded to the scrap heap in this locality. A new use has been found for them.

More than 150 motor relics were taken to Gressy some time ago and placed along the shore of Lake Ontario and filled with stone. The water in the lake is high at present and formerly the seas continually swept over the road, practically ruining it for traffic.

The automobile breakwater, however, has proved successful and the road is now in first-class condition.

FORCED DOWN BY FOG

A privately chartered aeroplane bound from Montreal to New York, with Rev. Avila Papineau, rector of St. Catherine Church, and Charles Moquin and Leonard Lehan, Montreal business men, as passengers, became lost in the fog, and had to make a forced landing on the estate of Dr. C. H. Dunn, at Katonah, N.Y. It was reported that the machine lost a wheel while making the landing. George Pigeon, a former war aviator, was piloting the machine. The photograph here shows the aeroplane after the landing.

Prospects of developing an extensive fishing industry in Hudson Bay and James Bay are scented by the Dominion Government. Some time this year the Department of Fisheries plans to send an expedition northward to find out just what fish, if any, there are in the great inland sea.

The completion of the Hudson Bay Railway to Churchill and the announcement of plans to push the Temiskaming and Northern Ontario Railway northward to James Bay make an investigation of the fish resources of the area important. Hitherto there has been no means of getting fish out and consequently no attempt at commercial fishing. Rail communications, however, will bring the Bay close to the great inland fish markets of the continent and provide for prompt delivery of fish to southern Ontario, the prairie provinces and the central states.

The expedition will be composed of practical fishermen accompanied by a scientist. They will sail northward in a regular fishing ship, possibly a trawler or perhaps a schooner. Owing to the tremendous area of water to be investigated it is felt the expedition will require at least two years to complete its work.

The fish explorers, as they may be called, will sail about the bay dropping anchor here and there and catching whatever fish are available. They will observe and note the varieties of fish and the quantities in which they are found, also the condition under which fishing operations would have to be carried on and the type of boats required for successful commercial operations.

Although men have sailed over and lived around the bay for centuries there is no accurate knowledge of the fish to be found there. It is known that fish are plentiful in rivers emptying into the bay but no one knows whether they exist in the bay itself. The only fishing ever done in the area has been on the small scale demanded by immediate local consumption. Consequently the only catches have been made in the rivers and in the bay about the mouths of rivers and in the neighborhood of settlements.

The department feels it is best to make its investigation early before attempts are made at commercial fishing. In this way they may be able to avoid loss to private individuals. But they will also determine in advance the regulations which should apply to any commercial fishing which might develop there and will avoid the difficulty of imposing regulations on fishermen who have already established their business.

To Take Canadian Census

Will Give Employment To 1500 Persons Next Year

Preparations are under way for the decennial census of Canada to be taken in 1931, giving employment to 15,000 persons. The whole country will be covered by information seekers, getting statistics as to population, births, deaths, migrations, sex, nationality, age and operations. Production in all its forms, including mines, transportation, marketing, and finance will be looked into. Altogether there are 36 main headings in census classification and 56 sub-section headings.

"You are short-sighted and don't wear glasses?"
"I do, but I hate them so that I only wear them when I am asleep."—Pages Gales, Yverdon.

**THREE MILLION DOLLARS
FREIGHT**

Paid by Farmers on Weeds to Fort William and Port Arthur

To haul the weed seeds cleaned out of grain shipped by the farmers of the three prairie provinces to Fort William and Port Arthur last year would require no less than 180 freight trains, each of 60 cars, while the sum that has been paid in freight on these seeds by the farmers amounts to \$3,000,000.

These figures are not guesswork but are based on Dominion Government statistics, according to Major H. G. L. Strange, of Fenn, Alta.

"Ninety-five per cent of all weeds on the farm are sown by the farmer himself, through the seed drill," said Major Strange, "and the tragedy of it is that most farmers think they are sowing good seed. Seed drill surveys on the prairies had shown that 53 per cent of all seed being used would be placed in the 'rejected' class and would not be permitted for sale by a seed house, while one man in Saskatchewan was by test found to be sowing 500,000 weed seeds to the acre."

BOY'S AND GIRL'S SWINE CLUBS.

For the past nine years Boys' and Girls' Swine Clubs, organized through the co-operation of the Dominion and Provincial Departments of Agriculture, have taught thousands of boys and girls the most approved methods of swine feeding and management and have been a practical demonstration to their districts in the production of the Canadian bacon hog.

Believing in the value of such education for farm boys and girls, the Canadian Pacific Railway has consistently supported this work, and will again offer as prizes a handsome cup to the Club from along its lines standing highest in each of the provincial competitions for Manitoba, Saskatchewan, Alberta and British Columbia.

In addition, these winning teams will be taken to the 1930 Royal Agricultural Winter Fair at Toronto next November as guests of the Canadian Pacific Railway.

The four cups will be competed for annually, but if a cup is won three times by any one Club it will become the property of that Club. The members of the winning team in each province will be awarded handsome medals each year, which will be retained permanently by them.

At the present time plans are being laid to standardize and increase swine production across Canada in order that we may capitalize on the splendid reputation our pork products enjoy in the world's markets. Boys' and Girls' Swine Clubs are recognized as an important educational factor in these plans.

LOCAL & GENERAL

Mr. J. Kirby spent the holiday with relatives in Calgary.

Mr. and Mrs. Ranton and family holidayed at the capital city.

Mr. and Mrs. C. E. Marcellus visited with Mr. Marcellus' parents at Vulcan, over the 24th.

Mr. and Mrs. H. Hawkes and Mr. and Mrs. J. M. Keith visited Banff and Radium during the holiday.

Mrs. Shantz of High River is visiting at the home of her parents, Mr. and Mrs. Dan Dippel.

Mr. George Shady of Stavely spent the holiday with his sister, Mrs. J. Clarke.

Miss Florence Reiber of Calgary, was a visitor at her home here over the holiday.

Mrs. Elmer Marks of Innisfail, was visiting friends in Didsbury the forepart of the week.

Mr. and Mrs. Bill Waldron and family and Mr. and Mrs. Waters, motored to Lake Louise on the 24th and returned the same evening.

Baseball games for next week: Didsbury at Crossfield, June 2nd; Olds at Didsbury, June 4th; Innisfail at Didsbury, June 6th.

Mr. R. Hawkes, Mr. S. Tighe and Mr. and Mrs. J. Fleury spent the 24th at Pine Lake. There's lots of fish in the lake, what's the matter with the fishermen?

The Olds Elks Orchestra are continuing to hold their weekly Saturday night dances in the Elks Hall. Everybody welcome and you will be assured of a good time.

Sunday, 1st June, Rev. J. H. Curtis of Olds will conduct the regular monthly meeting in Westcott Baptist Church at 8 p.m. All residents of the community are heartily invited.

It was decided last year to hold the community picnic, 1st July. It is getting time for the different workers to get together and make arrangements for this to be the best and biggest picnic ever held here.

Rev. Wm. McNichol, M.A., ex-president of Alberta Conference will conduct the services, Sunday 1st June at Westcott and Knox Church, Didsbury. There should be a large gathering.

Mr. and Mrs. Ervan M. Rodney entertained the following visitors from Calgary last weekend: Mr. and Mrs. W. O. Hieland and Master Earl, Mr. and Mrs. W. Simpson and family and Master Bobby Reed.

A number of ladies were entertained at the home of Mrs. McRae, Wednesday of last week, in honor of Mrs. W. D. Spence, who is leaving shortly for an extended holiday in Scotland. After a very pleasant afternoon, a dainty lunch was served by the hostess.

**AIR MAIL BUSINESS
DEVELOPING SLOWLY**

Air mail carried during the first quarter of the year, ending March 31, amounted to 144,896 pounds, as compared with 145,375 pounds for the corresponding period of last year.

A large increase in poundage is expected for the second quarter as the prairie air mail service was only inaugurated in March.

During the first three months of this year 958 scheduled trips were completed along with 101 special trips in the Mackenzie River district. There were, in all, 1,231 scheduled trips, of which 148 were partially completed, and 125 cancelled because of weather conditions.

The system of estimating air mail is different in Canada from the United States. Air mail in Canada may be carried a part of the way across the continent, then shipped another section by rail before it is again picked up by the planes. The flights are considered as one, while in the United States the poundage is considered twice in such cases.

Sermon Subject: "The Testimony of the Spirit of God."

ALL CANADA WILL HEAR THE SPEECHES OF POLITICAL LEADERS

Radio will provide the most radical departure in campaigning in the approaching federal election.

Over 2,000,000 people stretching from the international boundary line to the frozen northern wastes will be able, when the campaign is actively on, to tune in nightly on one or another of the prominent figures in either of the old parties, to hear at first hand a much more complete presentation of the issues than it is possible to gather from necessarily condensed reports.

There will be national hook-ups for both the Premier and Mr. Bennett, and there will be provincial hook-ups for them and their chief lieutenants.

What the effect will be upon attendance at public meetings remains to be seen. There is, of course, no substitute for personal contact between political leaders and the public whose franchise they seek, but the radio is the most personal of mediums, apart from actual contact.

Direct mail publicity, personal letters directed to the recipient will largely supplant the general broadcasting of printed matter. There is to be a drive to make the campaign and the issues a matter of direct personal interest to the elector, to make him feel that he is a shareholder with a material interest in the business of the country and that this election is the "annual meeting" at which he chooses the board of directors who will run his national business for the next four or five years.

Newspaper and out-door advertising campaigns are in course of preparation and the statement is repeated at both party headquarters that the best informed electorate in the history of Canada will go to the polls on election day.

In connection with radio broadcasting satisfaction is expressed in Ottawa that the proposed nationalization of broadcasting did not eventuate on the eve of an election. It would inevitably have been associated with charges of partisanship in allotment of time, not only in national hook-ups, but in the provinces as well.

Both parties are now free to manoeuvre for advantage in dates and hours with the private interests controlling the stations.

THE LADIES' AID

The old church bell had long been cracked,
Its call was but a funeral knell
With every broken tone.
"We need a bell," the brethren said,
But taxes must be paid;
We have no money we can spare—
Just ask the Ladies' Aid.

The shingles on the roof were old;
The rain came down in rills,
The brethren slowly shook their heads
And spoke of monthly bills.
The chairman of the board arose,
And said, "I am afraid
That we will have to lay our case
Before the Ladies' Aid."

The carpet had been patched and patched,

'Tis quite beyond repair,
And through the aisles and on the steps

The boards showed hard and bare.

"It is too bad," the brethren said,

"And effort must be made

To raise an interest on the part

Of members of the Aid."

The poor man blushed to meet
The grocer and the butcher as
They passed him on the street;

But nobly spake the brethren then,

"Pastor, you shall be paid,

We'll call upon the treasurer

Of our good Ladies' Aid."

"Ah," said the men, "the way to heaven

Is long and hard and steep,

With slopes of ease on either side

The path is hard to keep;

We cannot climb the heights alone,

Our hearts are sore dismayed;

We'll ne'er get to heaven at all

Without the Ladies' Aid."

WORLD HAPPENINGS BRIEFLY TOLD

There are 27 aeroplanes in use by the Canadian Government at present.

Canada has spent \$63,886 in sending delegations to the International Labor convention at Geneva, since 1925.

Earl Brydges, champion dog team driver of the world, is to become a resident of Ontario and Quebec. He is taking with him the team which won the world's title at The Pas dog derby this winter.

Navigation on the Great Lakes officially opened April 28, with the arrival of the "Hamonic," and "Noronic," at Port Arthur, with 3,000 tons of package freight for Western Canada points.

For the eleven months ending February 28, 1930, a total of 406,989 radio licenses had been issued in Canada. Ontario with 201,941 receiving sets leads Canada. Saskatchewan has 31,266; Alberta, 20,574 and British Columbia 34,426.

The vaults of the Bank of France now hold more than one-sixth of the gold reserves of the world. France stands second in this respect only to the United States. Her present reserves exceed those of Germany, Italy and Britain combined.

Praises This Asthma Remedy. A grateful user of Dr. J. D. Kellogg's Asthma Remedy finds it the only remedy that will give relief, though for thirteen years he had sought other help. Years of needless suffering may be prevented by using this wonderful remedy at the first warning of trouble. Its use is simple, its cost is slight, and it can be purchased almost anywhere.

Important Letters Now In Dominion Archives

**Canada Has Most Of Letters Signed
By Sir John A. MacDonald**

The first public document signed by Sir John A. MacDonald has been added to the voluminous collection of his papers gathered together by Dr. A. G. Doughty, curator of the Dominion archives. It is an affidavit signed by Sir John on October 6, 1834, upon his appointment as a poll clerk in the Upper Canada election in Prince Edward county. He was 19 years old at the time.

With the receipt of this letter, the Dominion archives now houses most of the important letters written by the first premier of Canada. Among the papers is the first draft of the British North America Act in Sir John's handwriting.

Physicians have stated that a cough or a cold that lasts more than three weeks merits a general physical examination.

Canadian Pacific Offer Attractive Summer Tours

Is your vacation anytime between May 15th and September 30th? If so, why not take one of two very interesting tours—at reduced rates—offered by the Canadian Pacific? Consider first the Eastern Tour and what it has to offer. It will enable the tourist to visit Ontario—with its famous lake resorts, Old French Canada—with its picturesque "habitants," and the Maritime Provinces—with the interesting fisherfolk and their equally-interesting craft. The tourist may travel to these places entirely by rail, or may choose to travel some of the way over the cool waters of the Great Lakes on a great white Canadian Pacific Great Lakes Steamship.

Various Ontario resorts at the lakeside provide fishing and bathing and, in fact, all summer sports. Niagara Falls, the beauty of which attracts so many people from all parts of the world, is only one of the many other salient features of this tour. One may, on this eastern excursion, visit Old French Canada. There the traveller will see the many picturesque Catholic shrines that are scattered along the shady Quebec country roads—the "habitants" rolling past on their quaint wagons drawn by oxen. In Montreal the visitor will be awed by contrasts. There, drawn up at the dock, is the latest ocean liner—a product of the new world, whilst—almost under its very shadow is the Bonsecours Market, where the French "habitants" sell their farm-produce just as do their relations in the old land. Then again—the excursionist may resolve to pass on as far as the Maritime—as far as St. Andrews where golfers and artists meet. In proportion to its size, there are more magnificent homes and more prominent visitors in St. Andrews than any other town in Canada.

There is Digby, Nova Scotia—the fishing centre; Parrsboro—the Postern Gate of Nova Scotia; Yarmouth and Weymouth—two more shipping centres and Old Orchard, Maine—a famous bathing resort.

PACIFIC COAST

Another fascinating excursion is that to the Pacific Coast. This allows of opportunities for the excursionist to see the majestic scenery associated with the Canadian Rockies, to see beautiful Lake Louise, to enjoy a round of golf over the famous course at Banff Springs, or to stay a week or so at the Emerald Lake Chalet—enjoying the fresh mountain air and the scenery that is offered. One of the chief features of this tour in the nature of a side-trip, is a twenty-four hour motor detour which takes the visitor by way of the famous Banff-Lake Louise region, through the Kicking Horse Pass to the Yoho Valley, perhaps the most glorious and varied motor trip that has ever been offered on this continent. Then on by train through picturesque British Columbia with its multitudinous industries to Vancouver. After Vancouver—Victoria, the capital of the province, renowned for its scenic resemblance to the Old Country. At this city, the famous Colwood Golf Course, the Dominion Astronomical Observatory—with the second largest telescope in the world, and Butchart's sunken garden, are the chief attractions. At Victoria, two famous excursions are offered—a ten day cruise to Alaska and a seven day cruise of the West Coast of Vancouver Island. To those whose vacation period is short, the famous Canadian Pacific "Trans-Canada Limited" will prove valuable for speedy travel. It is equipped with de luxe all-steel sleeping cars, solarium lounge, women's lounge and bath, men's bath, smoking room, buffet with soda fountain, observation lounge and a valet service. It is finer and faster than ever, and the equipment of each train entails an investment of over a million dollars.

Persian Balm tones and stimulates the skin. Fragrant as a flower. Cool as morning dew. Safeguards and beautifies the most delicately-textured skin. Creates complexions of exquisite charm. Adds a subtle finish to the daintiest woman. Invaluable for softening the hands and making them flawlessly white. Cool and refreshing. Daintily fragrant. Delightful to use. Chosen unhesitatingly by all women who care for feminine distinction.

Canada Large Exporter Of Gypsum Products

Has Developed Trade With Thirty-Five Other Nations

A European trade conference dealing solely with Canadian gypsum products is scheduled to open in London, on April 30th, says R. E. Haire, head of Gypsum, Lime and Alabastine, Canada, Limited, who points out that, "in three years' time trade in Canadian-made gypsum products has developed with 35 other nations and has increased so rapidly that the company has now become the largest exporter of the materials in the world."

New York University Given Valuable Papers

Early English Legal Documents Date Back 700 Years

A collection of more than 400 Early English legal documents, some of them dating back 700 years, has been presented to New York University by Judge Moses H. Grossman in the name of Frederick Brown, real estate operator and philanthropist.

Among the collection is a 12-foot parchment "pipe-roll," made of a series of skins sewed together and originally kept in a metal tube. It records that a sheriff, Richard Pyle of Southampton County, collected Crown revenues in 1638 "from the Jews for protection from being defrauded from the knights," and "from the knights for license to defraud the Jews."

NERVES WERE BAD

Could Not Sleep

Selling Its Last Secrets

Quarter Admits Public Into Sultan's Harem At Istanbul, Turkey

Once royal dispenser of terror and mystery to the mystery-loving world, Istanbul is now selling the last of her secrets.

By order of the Turkish Republic, the doors of the imperial harem of the Seraglio palace of the Ottoman Sultans have been thrown open. Infidels and followers of the prophet alike may pass, for the price of 25 cents the threshold whose crossing would once have cost them their lives.

For four and a half centuries, this was the most jealously guarded corner of the vast palace, and of the vast Ottoman empire. Great walls, heavy bronze gates, thousands of soldiers without and hundreds of eunuchs within, kept inviolate the mystery of the imperial harem. Now the public may stalk through the dusky labyrinth of rooms and corridors that seem to trail on and on indefinitely, one after the other, still faintly glowing with the same brocaded hangings and silken, couches, tiled walls and frescoed ceiling of the imperial days, but empty of the sultanas and dowagers, the eunuchs, and thousands of slaves who lived their hidden lives within these walls.

Keep Tab On Weight

Approximately one out of every twenty-one adults weigh themselves daily on penny weighing machines according to latest statistics on this subject. At the present time nearly 2,900,000 adults in the United States and Canada put a penny into these scales every day. It is claimed that people weigh themselves in the summer months with about three times the frequency that they do in the winter, although medical authorities contend that it is important to watch one's weight in all seasons.

Dairy Production Higher

According to L. A. Gibson, provincial dairy commissioner, the winter dairy production in the province of Manitoba for the first two months of 1930 has been the highest in the history of the province, an increase for January of 0.9 per cent. and February 6.4 per cent. over 1929.

Heal the Sprain with Minard's.

Germany's New Idea

A novel experiment in prison life in which "high grade" prisoners will be given two weeks' vacation a year, permitted to accept work from outside employers and given a share in the management of the prison, is about to be tried out in Germany.

Children's Croupy Colds Quickly Relieved

Take a saucepan or pitcher of water; place it on a spirit stove or lamp. Add half a teaspoonful of Catarrhozone to a pint of water which is brought to a boil. Let the steam from the kettle fill the room so that medicated air is breathed in by the child. The distressing cough is relieved. Good results are quickly noticeable from using Catarrhozone in this manner. Even for small infants this treatment is ideal. Every good druggist sells Catarrhozone in 50c. bottles.

Parachute Opens Itself

Was Pronounced Success In Test At Curtiss Field Recently

An automatic parachute which opens of its own accord after a jump, was demonstrated successfully at Curtiss Field by John Rungar, a professional parachutist. Rungar, his hands tied behind his back, jumped from a plane at 2,000 feet. He landed safely in a tree.

So pleased was Rungar with the chute that he said he would jump from 20,000 feet with one. It was invented by John Ruby.

DO YOU SUFFER FROM CONSTIPATION?

Countless remedies are advertised for constipation. Many relieve for the moment but they are habit forming and must be continued. Others contain calomel and dangerous mineral drugs, which remain in the system, settle in the joints and cause aches and pains. Some are harsh purgatives which cramp and gripe and leave a depressed after effect.

Avoid lubricating oils which only grease the intestines and encourage nature's machinery to become lazy.

A purely vegetable laxative such as Carter's Little Liver Pills, gently touches the liver, bile starts to flow, the bowels move gently, the intestines are thoroughly cleansed and constipation poisons pass away. The stomach, liver and bowels are now active and the system enjoys a real tonic effect. All druggists 25c and 75c red pkgs.

One of the attractions at Cannes, France, is a woman who lives on ground glass in a glass cage.

It Testifies For Itself.—Dr. Thomas' Eclectric Oil needs no testimonial of its powers other than itself. Whoever tries it for coughs or colds, for cuts or contusions, for sprains or burns, for pains in the limbs or body, well know that the medicine proves itself and needs no guarantee. This shows why this Oil is in general use.

The world produced 1,323 million barrels of crude oil in 1928.

Make Your Windows Pay

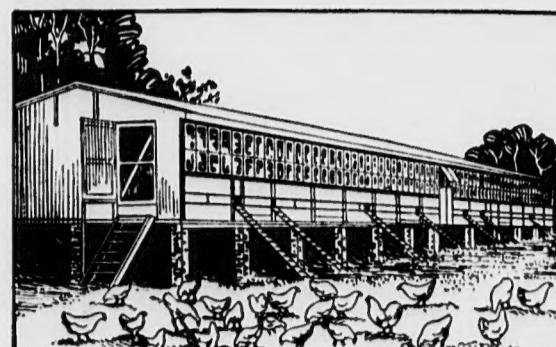

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

USE
WINDOLITE
IN
BROODER
HOUSES
LAYING PENS
DAIRY BARN
SUNROOMS
ETC.

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

CHAPTER X.—Continued.

Long after the dust raised by Jim's car had vanished, the old lady still watched the road at the point where he and Charmian had turned to wave.

"Well," she sighed, "I kind of wish I knew how it'll all end. I can't help being fond of Jimmy. He's a good boy, and he'll make some woman a splendid husband—that is, if she's not too fantastical in her way of thinking. Sometimes I believe that all there is the matter with him is just being tied too close to Wickfield. There he was, all ready to go to Harvard along with Billy Knowles, and that fool of a Sarah Bennett took on so about his leaving her that he gave it up and went into the bank instead. What Jim needs is a fresh outlook, but dear knows when he'll get it unless his mother should be removed by a merciful Providence, and she's uncommon healthy."

At this point Grandma's thoughts were interrupted by Lizzie Baker's Persian cat, which, being vigorously chased by the Merrys' Gypy, took refuge in a horse chestnut tree across the way.

"No need of you standing there glaring at her, Gypy," admonished Grandma. "The good Lord knew what he was about when he gave pussy her claws. That's it, you dig up a bone and go along home peaceable, there's a good dog, I expect that cat'll die of heart failure some day."

Grandma nodded for a moment, and when her eyes opened her thoughts had returned to Charmian, Jim Bennett, and their problems.

"If Jimmy could only get so's he'd see things the way she does—poetry, and sunrises, and small-paned windows in old houses," she mused, "it would be all right. . . . Now that young doctor, he understands without explaining. . . . If Charmian let the biscuits burn while she watched a sunset (though come to think of it

FROM MOTHER OF EIGHTEEN

Read How This Medicine Helps Her

Cardston, Alberta—"I am fifty-eight years old and the mother of eighteen living children. We live on a farm and I am a very healthy mother considering that I have such a big family to work for. The druggist first told me about Lydia E. Pinkham's Vegetable Compound and I have depended on it for many years.

When I had this picture taken, the photographer was telling me about his wife's ailments and after I told him about the Vegetable Compound he went to the drug store and bought her two bottles."—Mrs. BERTHA SALLENBACH, Sr., Cardston, Alberta.

she never did do such a thing), why he'd just laugh about it. He's good-natured, and not too fussy about what he eats. I've no doubt he'd make her a more suitable husband than Jimmy Bennett would. . . . He's more her sort . . . and yet—Good land alive!" she broke off suddenly, "here comes Lizzie Baker on the run! I wonder is the Town Hall burning. I haven't seen her run for fifteen years!"

CHAPTER XI.

What's happened?" asked Grandma, as her old friend puffed into the room and sank down breathless on the nearest chair. "You shouldn't run at your age, Lizzie, heavy as you are. Have you had bad news?"

Miss Lizzie rocked violently for a moment, while she wiped her streaming face with a corner of her apron. "I don't seem to have a handkerchief," she gasped. "Maybe I dropped it on the way."

"This seems to be your day for dropping things," smiled Grandma. "I saw your petticoat come off less'n an hour ago."

"I hope to goodness no one else saw it," replied Miss Lizzie. "Since I got so fleshy my petticoats all need new bands, and I ain't had time to fix 'em. I had a piece o' string run through that buttonhole, and it went and busted on me. I was thankful I hadn't got as far as the meat market where I was goin', or 'twould have been all over town by now. Well, Grandma, I've got some news—more news than Wickfield's seen

since Noah boarded the Ark: Edgar Purdie is suing Luella Moore, over to South Wickfield, for breach o' promise! He's got evidence that he give her a costly present and she won't return it after refusin' to be his wife! Now what do you think o' that?"

"I think Luella's got more sense than I gave her credit for," responded Grandma. "A woman that's smart enough to get any sort of present out of Edgar Purdie, deserves to keep it. Did you hear what 'twas he gave her, Lizzie?"

Grandma was so absorbed that she didn't notice a near-dog-fight across the street.

"It was beads," replied Miss Lizzie promptly. "A long string o' fancy yellow beads that cost the deacon a week's pay or more. Oriental, he called 'em; though Sarah Bennett, who see 'em with her own eyes, says they don't look one mite better than what you can get at the five-and-ten cent store up in Portland. Seems the deacon carried 'em with him when he asked her; and like a fool he give 'em to her first. Guess he thought they'd sort of pave the way for intentions; and accordin' to him she seemed real pleased—said yellow was her favorite color, and let him fasten 'em around her neck himself, so—What you laughin' at, Grandma?" broke off Miss Lizzie, as the old lady suddenly gave way to mirth.

"I was only thinking how silly Edgar Purdie must have looked when he fastened those beads around Luella's neck. Go on, Lizzie. Did he ask her then?"

"I presume he did, it bein' what you might call the proper moment; but accordin' to him she sort of put him off. And here's where the trouble commences—trouble for Luella, I mean. She let him kiss her! Of course he went off thinkin' it was good as settled; but when he drove clear to South Wickfield next evenin' for a little love makin' after the children was in bed, she'd changed her mind! They had words, and he asked for the beads back and she wouldn't give 'em up—said he'd made her a present of 'em, and so fur's she knew there wasn't no string tied to it. He come away madder'n a wet hen, and vowin' to get the law on her. And next mornin' he put the case in Lawyer Garfield's hands. He's suitin' for two thousand dollars and possession of the beads. They say Gam Garfield tried to calm him down, and means to settle it out o' court if Luella's reasonable. Now did you ever hear the beat o' that?"

"No," replied Grandma soberly, "I never did. But what'll Ed Purdie do with those beads if he gets 'em back, I'd like to ask? He can't wear 'em himself, Lizzie, and they wouldn't be any special use in a missionary barrel, which every one in Wickfield knows is the only charity he ever gives to, and that only because he can get rid of his wornout clothes and credit for being charitable at the same time."

"I dunno but what a string o'

HEADACHES

Needless pains like headaches are quickly relieved by Aspirin tablets as millions of people know. And no matter how suddenly a headache may come upon you, you can always be prepared. Carry the pocket tin of Aspirin tablets with you. Keep the larger size at home. Read the proven directions for pain, headaches, neuralgia, etc.

beads would be more use to the heathen than that old silk hat the deacon found up attic and donated, last time we packed a barrel," answered Miss Lizzie. "It took up a powerful lot o' room, though I put a cracked butter dish inside it, and some woolen stockings. Savages are partial to beads, so I've always heard, so like as not the heathen are, too; and the beads would cover a little of their nakedness, which a hat wouldn't."

Grandma's lips twitched with amusement as she replied: "Somehow, Lizzie, I don't think Ed Purdie is counting on giving those beads to the heathen. Luella Moore isn't the only pebble on the beach, as they used to say, and if she won't have him, he's likely to look further. May-be he'll ask you."

"Me!"

In her indignation Miss Lizzie tried to rise, but as she was what they call "fleshy" in Wickfield, and the chair was a small rocker with arms, which showed a tendency to rise with her, she sank back helplessly and said: "I'm ashamed of you, Grandma Davies! Why, I wouldn't take Ed Purdie, not if he was covered entirely with beads like the bag that city woman carried to the strawberry festival!"

"There! there!" soothed the old lady. "I didn't mean to get you all stirred up. If he did ask you, Lizzie, it would be the only sensible thing he's done since he asked his first."

"Well," sighed the caller, relenting enough to smile at this tribute, "I dunno but what you're right, though so fur's I know, no man has ever agreed with you. P'raps it's just as well, I've always thought a proposal would be a terrible embarrassing thing to live through."

Grandma's eyes twinkled.

"So it might be, Lizzie, under certain circumstances," she admitted. "You got to go this quick?" as Miss Lizzie made another effort to leave the chair. "If Charmian was only home I'd ask you to stay to dinner; but I guess we won't have much but a pick-up. She's gone over to South Wickfield with Jim Bennett to collect a mortgage or something."

"I seen 'em start." With a firm wrench Miss Lizzie extricated herself, and arose. "I'm glad that Jim has come to his senses and dropped that Darling girl. He ain't taken her out but once since the strawberry festival, and then his mother invited her to supper and he had to beau her home. And she leaves town the last o' the week. I declare, Grandma, it'll be a load off my mind, havin' her go. That green hat is a blot on the landscape, and when I see that young doctor of yours walkin' home with it after mail time last night, I decided 'twas time to do something about it, or my name's not Lizzie Ann Baker."

"Did he walk clear to the house with her?" questioned Grandma eagerly.

"That he did! And lallygagged around the gate for fifteen minutes. Mrs. Merry says she's a vampire, whatever that is—nothin' respectable, I'll be bound. I meant to look it up in the dictionary, but I clean forgot. Dear me suz! I wish Ed Purdie would ask her!"

"My stars!" breathed Grandma, awed before this inspiration. "I wonder he hasn't thought of it himself, Lizzie. There's no fool like an old fool; and those yellow beads would have been real becoming to that Darling girl. Thanks for bringin' me the news, my dear; but don't you run so fast again or it's likely to be a matter of life and death — to you."

(To Be Continued.)

W. N. U. 1836

Made Long Journey

Tern Banded In Labrador Was Seen In Southern Africa

A common tern, member of the gull family, was banded in northern Labrador by Oliver H. Austin, Jr., in July, 1928. Fourteen months later it was seen and examined at the southern tip of Africa on the Indian Ocean, 9,000 miles away, which is thought to set a record.

The tern, or sea swallow, is usually smaller than the gull. Its bill is more slender, its feet not so strong, and its flight more graceful and dashing. The common tern is pure white with a cap and mantle of bluish gray and is sometimes hunted for its feathers. The all-white species live on Pacific islands; those with darker coats are widespread.

KEEPING BABY LOVELY AND WELL

If Skinny, Beware, Says Doctor. Gain Quick

New Ironized Yeast Adds 5 to 15 Pounds In 3 Weeks. New Health, Strong Nerves—Or No Cost

"Skinny folks subject to many grave diseases," says an eminent physician. When sick they lack reserve strength and many die.

Don't run risk of dangerous disease from skinniness. New Ironized Yeast adds 5 to 15 lbs. in 3 weeks. Ends nervousness, constipation, indigestion over night. Clears skin like magic. New pep first day.

Two great tonics in one. Weight-building Malt Yeast, and strengthening Iron. Far stronger than unmediated yeast. Results in half time.

Get new health and weight quickly. Get pleasant tablets of Ironized Yeast from druggist today. Feel great tomorrow. If not delighted, manufacturer refunds your money.

Little Helps For This Week

"They that seek the Lord shall not want any good thing."—Psalm xxxiv. 10.

Father! replenish with Thy grace This longing heart of mine; Make it Thy quiet dwelling-place, Thy sacred, immost shrine! Forgive that oft my spirit wears Her time and strength in trivial cares; Endow her in Thy changeless peace, So she from all but Thee shall cease.

—Angelus Silesius.

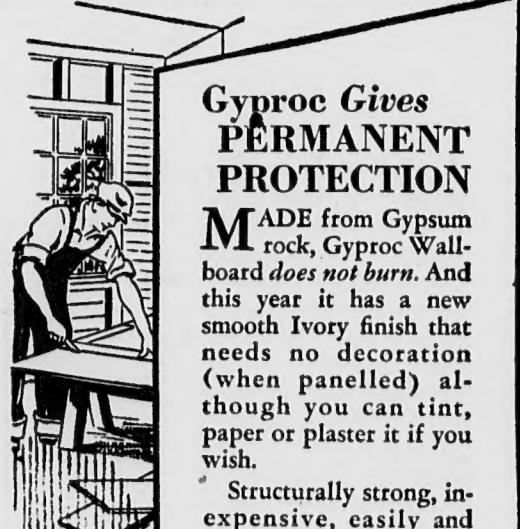

God is Alpha and Omega in the great world; endeavour to make Him so in thy little world. Make Him thy evening epilogue and thy morning prologue; practise to make Him thy last thought at night when thou sleepest, and thy first thought in the morning when thou awakest; so shall thy fancy be sanctified in the night, and thy understanding rectified in the day. So shall thy rest be peaceful, thy labors prosperous, and thy death glorious.—Quarles.

Worms cause fretfulness and rob the infant of sleep, the great nourisher. Mother Graves' Worm Exterminator will clear the stomach and intestines and restore healthfulness.

Mauna Loa, in Hawaii, is the largest active volcano and mountain-mass in the world.

Use Minard's for Burns.

Mrs. A. G. Thompson and Mrs. J. Elliott spent last week in Calgary at the Provincial W.I. convention as delegates from the Lone Pine W.I.

Miss Edith Cipperley who has been holidaying at her home, is spending a week with her friend Miss Ethel Krebs.

Miss Tena McLean, who is in training at the Calgary General Hospital, is spending her vacation with her parents here.

The Lone Pine W.I. are giving a two day's short course of labor saving devices on June 20 and 21.

The ladies of the Lone Pine W.I. held a very successful picnic and dance at the Hall on the 24th.

The W.C.T.U. will meet at the home of Mrs. T. A. Hunter on Wednesday next.

Mr. Walters, the teacher at Jutland school, spent the holidays at Calgary.

Mr. and Mrs. L. Hehn had as their guests over the holidays, the latter's parents Mr. and Mrs. Gardner, of Rowley, Alta.

The Burnside U.F.A. will meet on Monday, June 9th, in the Lone Pine Hall. A full attendance will be requested as the plans will be made for the annual picnic on June 30.

SPORTS.

Didsbury entered their team in the annual baseball tournament at Olds, Saturday. Innisfail were drawn to be their opposition.

The northerners knew they were up against a hard proposition so put their strongest pitcher (McMahon) on the mound. Jimmy Devolin did the twirling for the locals. Both these twirlers were in rare form and only allowed two or three hits. Innisfail got the breaks that won them the game by the narrow margin of 2-1.

The local basket ball girls received second prize at Olds Saturday in basket ball tournament held there.

First game they defeated Olds 9-5 and in the final game lost to Innisfail 11-7.

Didsbury were again at the small end of the score when they journeyed to Innisfail Wednesday last. Didsbury made the trip north minus a few of their regular players, the vacancies being filled by some of the local High School team.

The first two innings proved disastrous for the locals, the northerners scoring 3 runs the first innings on one hit and 6 runs the next on 3 hits. Both of these innings were filled with errors. Sutherland relieved Gooder in the third innings and was only touched for 1 hit.
